Osteoblastoma, benign, of odontoid process of axis, 274
Osteoma, skull, in probable Gardner's syndrome, 302
Otitis media, chronic, in nasopharyngeal carcinoma, 553
Outcomes assessment, targeted studies as a learning
  tool in, 655
Oxygen, hyperbaric
  effect on survival after global cerebral ischemia, 412
Oxygen pressure, brain tissue, effect of ischemic
  hypothermia on, 85

P

Pain, chronic
  electrical stimulation of nervous system for, current
    status of, 142
  nonmalignant, intrathecal morphine pump in
    treatment of, 92
Palatal monoclonus, associated with bilateral olivary
  hypertrophy, 215
Parkinson's disease, 337-rc, 453-rc
  tremor suppression, deep brain stimulation
    compared to thalamotomy for, 145
Perfusion, lumbo-ventricular, in idiopathic normal
  pressure hydrocephalus, correlation with MRI-CSF
  flow studies, 14
Peripheral nervous system, neurosurgery of, 637
pH
  brain tissue, effect of ischemic hypothermia on, 85
  correlation with cerebral blood flow, carbon dioxide
    tension, and brain tissue oxygen tension, for
    monitoring severely injured patients, 650
Phase ghosting, reduction of, 109
Pineal gland, mature teratoma, total resection of,
  metachronous neurophyseal germinoma occurring
  8 years after
Pineal region
  esophageal carcinoma metastatic to, 100
  ganglioma of, 104
Pituitary adenoma, central skull invasive, imaging of,
  333
Platelet-derived growth factor
  endothelial cell, role in stromal angiogenesis in
    human glioma, 181
  role in angiogenesis in malignant progression of glial
    tumors, 189
Politicians, influencing of, 471
Polyposis coli, familial
  in Gardner's syndrome, 302
  malignant ependymoma in patients with, 290
Porencephalic cysts, fenestration to lateral ventricle,
  treatment of seizures by, 524
Posterior interosseous nerve syndrome, neurosurgery
  for, 637
Posterior longitudinal ligament, ossification of, anterior
  cervical surgery for, clinical instability associated
  with pseudoarthrosis after, evaluation and
  treatment of, 246
Preservation of medicine, need for perspective and
  principle for, 232-ed
Pseudoarthrosis, clinical instability associated with,
  after anterior cervical surgery for ossification of
  posterior longitudinal ligament, evaluation and
  treatment of, 246

R

Radiation necrosis, after radiosurgery for arteriovenous
  malformation, 385

Radiation therapy
for central neurocytoma, 197
for giant cell tumor of sphenoid bone, 547
Radiology. *See also* Neuroradiology
Radiosurgery, arteriovenous malformation
radiation-related adverse effects observed on neuroimaging after, 385
reported results of, incomplete patient follow-up on, effect of, 373
Rat, brain microvascular endothelium, effect of cerebral ischemia on glucose transporter kinetics across, 67
